

SLAB ACCESS LADDER

THE SAFE LADDER FOR ACCESS TO WORKSITES

The slab access ladder is designed for safe access to the upper slabs of buildings under construction (balconies, upper floors, etc.). The access gate, handrails and 80 mm steps provide a high level of comfort and safety.

Class	Professional
Use frequency	Ultra intensive
Use	Flat surface
Material	Aluminium
Maximum load (kg)	150
Guarantee (year)	5
Recyclable up to (%)	92

Wheels for ease of movement

Anti-slip steps 80mm

Lifting rings

Comfortable access platform 0.5 x 0.5m

Height-adjustable ladder

Safety gate

10mm holes anchoring plates (fixings not supplies)

Model shown: 02451208

All rights reserved, non-contractual images.

- Three telescopic models available to suit every project
- For accessing slabs in complete safety
- Can be fixed to the floor or to the slab using special plates (diameter 10 mm)
- Two handrails for safety and to facilitate climbing up or down
- Optimal safety thanks to the self-closing gate
- Foldable gate and platform to minimise storage space and facilitate transport
- Comfortable 0.5 x 0.5 m access platform
