

EVOKLIP

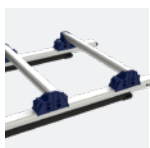

YOUR SAFETY AT THE HIGHEST LEVEL EVEN UNDER EXTREME CONDITIONS

The new roof ladder Evoklip is the result of two years of work in collaboration with roofers from all regions. More comfortable, reliable and stable, it meets the requirements of craftsmen working at height.

Class	Professional
Use frequency	Intensive
Use	Roof
Material	Aluminium
Maximum load (kg)	150
Guarantee (year)	5
Recyclable up to (%)	70

One single-aluminium roof-ridge hook for all type of roofs

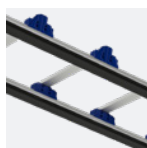

Wide distance between rungs, safety support foot

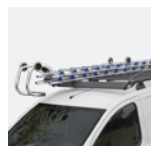

Locking system of the ladders with captive pins

Optional Ø 125mm wheels with soft covering for quick set up on roofs

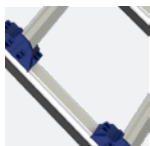

Anti-slip rubber strips to protect the roof and ensure greater grip

Easy transport at the bottom of the vehicle and on the roof rack.

Optional tool-tray with adjustment of the inclination, anti-fall edges and locking system

Bevelled rungs for maximum comfort of the knees

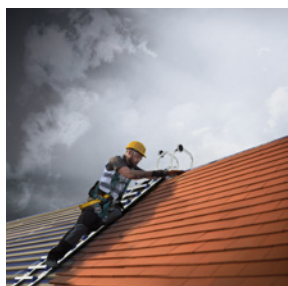

Model shown: 02453725

- Three complete packs consisting of four ladders + one roof-ridge hook
- Choice of three rung spacings (250, 330 or 390 mm) to adapt to different shapes of tiles and to the roof slope
- Anti-slip strips for safe climbing
- Reinforced uprights to ensure rigidity and stability in all situations
- 30% lighter than a standard aluminium ladder
- Very easy to handle to facilitate installation
- Quick to climb to thanks to the wide distance between rungs and comfortable to use thanks to their bevelled shape
- Increased space under the rungs, secure foothold
- Easy to transport in the back of vans or on the roof rack
