

THREE-SECTION ROPE-OPERATED LADDER FOR FIREFIGHTERS

SAFETY AT THE HIGHEST LEVEL

The Tubesca three-section rope operated ladder is specially designed for firefighters. Its adjustable stabilisers guarantee maximum safety. Made entirely of aluminium, it is particularly lightweight, making transport and installation easy.

Use frequency	Ultra intensive
Use	Flat surface
Main material	Aluminium
Maximum load (kg)	200
Guarantee (year)	5
Standard	EN 1147 / NIT 331
Recyclable up to (%)	90

The standard for these models is very specific. It is accompanied by a technical note for this use. Their use in construction or maintenance is prohibited.

Moving section steel lock hooks

Reinforced uprights

Model shown: 02633021

- Highly robust for high-level access exclusively against facades
- Stabilisers ensuring a perfect hold under load in addition to the support of the wall
- Wrap-around footpads for extremely high safety guarding against any risk of slipping

Emergency & rescue

Use leaning against a facade
