

HARNESS BUDGET

The BUDGET fall prevention harness is part of the personal protective equipment intended for work at height. Designed for occasional use. It comprises two anchor points (sternal and dorsal) and two thigh adjustment buckles. It ensures safe working and grips the body perfectly. It is part of the fall prevention system components. This harness is EN 361 and EN 365 compliant, CE certified and available in two sizes.

- ▶ A harness that allows working in complete safety (ensuring worksite safety and fall prevention).
- ▶ Two anchor points: dorsal (with an 8.00 mm metal ring) and sternal (with two strap rings that must be linked by a carabiner serving as the anchor point).
- ▶ The sternal anchor allows working under tension in a harness to concentrate entirely on the task at hand.
- ▶ Grips the body perfectly
- ▶ Polyester straps, 45 mm wide
- ▶ The harness is closed and adjusted with two male-female metal buckles at thigh height
- ▶ The sub-pelvic strap keeps the user in the upright position for enhanced comfort
- ▶ PVC clip to hold the surplus strap

Product characteristics	
Use	Moderate
