

# ANCHOR LOOP SLING

When no anchor point is provided on the structure for subsequent work, using a temporary anchoring ring allows completely safe working while belting a solid structural component ready for attaching to it using a simple “tie” knot.

- ▶ A “neck tie” type anchoring ring made from a 19 mm wide polyamide strap for temporary attachment use
- ▶ Occasional use
- ▶ Can hook to all structures
- ▶ Joined by a single connector
- ▶ Resistance: 22 kN
- ▶ Compliant with standard EN 795 class B
- ▶ Different lengths are possible: 1.00 and 1.60 m

| Product characteristics |           |
|-------------------------|-----------|
| Material                | Polyamide |
| Maximum load (kg)       | 2200      |
| Warranty (years)        | 5         |

To comply with the law and be sure to use equipment in perfect condition, all fall prevention PPE must be inspected every year and before use, always carry out a visual check. UNYC® personal protective equipment come with a 10-year guarantee from the date of manufacture and a 5-year guarantee from the date of initial use.
